THE CORRECT PRINCIPLE.

The great advantage of the method employed to separate the grain from the straw in this machine is unmistakeable. It is reputed to save enough on an average over other kinds of machines, to pay the farmers' threshing bill, and its superiority is readily conceded by all except "agents" and "manufacturers" of the old style, who are blinded by conflicting interests.

Parts Dispensed With.—It has no Beaters; no Pickers; no Canvas Grain Carrier; no Raddies; and only about half as many Belts, Gear Wheels, Boxes, Journals, Shafts, Pulleys, etc., to "clog," wind," wear out, waste grain, add to draft or to be kept in Expair as other kinds,

Hence Results its comparative Ease of Draft. Cheapness of Repairing, Ease of Manage-Durability, etc. Its decided advantage in any one of these important features alone, would give it prominence. But it clearly excels in all of them.

SEWING

MACHINES! THE SINGER MANUFACTURING CO.'S NEW FAMILY MACHINE.—No other family Sewing Machine has so rapidly won favor in the household. The very large sales of that popular machine, as shown by official returns, far exceed those of any other company, and this factor result has been owing to its real merits—hence its great and growing popularity. It is simple in construction, easily understood, easily operated—all its parts gli ling smoothly and noiselessly along—not liable to get out of order, has capacity for a great range and variety of work, sewing all kinds of cloth and with all kinds of thread, and with the numerous attachments for hemming, cording, tucking, quilting, trimming, binding, raiding, &c. and embroidering of many ingenious, tasteful and difficult designs, is the most perfect of all family sewing machines. Any one who will take the trouble to examine the merits of the different machines claiming attention, can soon discover whether we claim too much for ours. It would avail us nothing to make the above assertions if we were not ready to prove them, and all we ask is a trial, for observation alone can justly convey a clear impression of the many kinds of work of which our new family machine is capable.

THE FOLDING CASES.

he machines, when hot in use, from dust and med-desome lingers, are made from choice woods, em-ellished by pleasing designs, thus making our new milly machine not only an ornamental piece of reture, but in some of the more elaborately fin-shed machines, a work of real art.

THE ATTACHMENTS Of our new family machine, above referred to, are not only numerous, but highly useful to the pur poses for which they were intended. They need only a trial to show their great value. Among the

Perhaps no one medicine is somiver-sally required by ev-ery body as a cathar-tic, nor was ever any before so universally adopted into use, in among all classes, as his mild but effi-

cient purgative Pill obvious reason is, that it is a reliable and far more effectual more reliable and far more effectual remedy than any other. Those who have tried it know that it cured them; those who have not, know that it cures their neighbors and frienes, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their ret arkable cures of the tolowing a problem to the cures of the following complaints, but such cures are known in every neighborho d,and we need not publi h them. Adapted to all ages and conditions in all climates; condrug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to

them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the interna viscera to jurify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver and other organs of the body, restoring their in gular action to health, and by correcting wherever they with such as

storing their firegular action to health and by correcting, wherever they exist, suel derangement is as are the first origin of disease. Minute directions are given in the wrapper on the lox, for the following complaints, which these Pells rapidly cure:

For DYSPISIA or IND GISTION, LISTLESSNESS, LANGUOR, and LOSS OF APPETITE, they should be taken monerately to stimulate the stomach and restore its health) tone and action. For LIVER CMPLAINT and its various symp-

JAUDICE, OF GREEN NICKNESS, BILIOUS COLIC and Bilious Fivers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For DYSENTERY OF DIARRIGES, but one

mild dose is generally required.
For b Helmatism, Golt, Gravel, Palpita
Tion of the Heart, Pain in the Sile, Back and Loiss, they shou'd be continuously taken, as r quired, to change the diseased action of the sy tem With such change those complaints disappear.

For Droisy and Droisical Swellings
